Dear Mendel Men,

We the editors of the Magnificent Mendel MONARCH, would like to present to the Graduating Seniors, the student body and the faculty, the 1981 Mendel Catholic High School Yearbook.

We are truly pleased with this year's book, and we hope that you enjoy it. As you look through this book five, ten or even twenty years later, the pages might be torn and yellowed or the cover might show its years in wear and tear, but the memories will come back into your mind just as if it were yesterday when you walked through those front doors as a scared little freshman.

This entire message is unlike all other letters from the editors in the past. We, the editors, would like personally to congratulate the class of '81. For, it took hard work and total determination for them to succeed in reaching the point at which they are now, graduates.

To the rest of the student body we leave you this, though. Before you follow the crowd, find out the destination. Make your dreams come true. Wake up! Those who can do no more than they think they can — won't. Want a better world? Start a better you. Too many look for jobs but too few look for work. Only in the dictionary does *success* come before work. One never really completes an education. Daily living demands daily learning. To coin a phrase, performance, not promises, produces. Particularly if you are the one performing! Faults are easier to find than remedies. Just because you are intelligent and take life as you find it, doesn't mean you have to leave it that way.

In closing it is our sincerest hope that the 1981 Monarch will prove an adequate record and an abundant source of memories of the school year 1980-81.

MENDEL CATHOLIC HIGH SCHOOL
250 EAST 111TH STREET
CHICAGO 28, ILLINOIS

May 31, 1981

Dear Graduates of 1981,

First of all, CONGRATULATIONS from the entire Mendel Family, the Faculty, Staff, Parents, Underclassmen and Alumni upon your successful completion of a four year college preparatory curriculum. Needless to say, we are all indeed very proud of each of you.

Looking back over the past four years, I am sure you have many memories of success as well as challenge. Perhaps there were days when you thought you would never make it, but you did make it. Nothing was handed to you on a proverbial "silver platter." You worked for every grade, every honor, every award, every letter, every recognition. You also saw classmates over the past four years who did not put forth the effort fall by the wayside. Unfortunate as this is, it is a grim reality of life.

You succeeded because you had a vision, a dream of what you could become. The vision provided the inspiration, but four years of persistent hard work were necessary to make your dream, or at least part of it, come true.

The very first book of the Bible depicts God in the "work" of creation for six days and resting on the seventh day. The story of creation is a model for each of us. There is a time for work; there is a time for resting.

God has entrusted us with the stewardship of creation and has given us the resources within ourselves to make ourselves better people and the world a better place to live for all peoples. That dream becomes a reality through the efforts of the community of peoples the world over, each person doing his part.

You have just begun to discover your potential for success. There is yet much more promise to be discovered and developed within you. With each new personal success you will grow in self confidence and realize the importance of having a dream and making it come true by hard work.

It is with a sense of confidence that I see you now assuming your responsibility for yourself and for the stewardship of all creation. You join thousands of Mendel Alumni the world over who caught a distinctive Christian spirit in these halls and on this campus. In the past four years you have been more deeply touched than you may now realize. Take what you have received, build upon it, and pass it on to another generation.

With God's help and your own dream and hard work, I am sure you will leave this world a better place to live for generations yet to come.

Sincerely yours in Christ,

Rev. Joseph G. Stobba, O.S.A.

The Seniors Have Arrived!

The seniors have arrived. They bear the burden of four years of work and of success. They are the end product of the learning experience that so much begins in work and thereby leads to success. They have been tried by fire and have been found to be golden, the true standard of Mendel's educational system.

These men, listed in the above order, represent the class ranking as of the end of the second semester of the senior year. This ranking, or G.P.A., is computed mathematically. Mr. Shields, the Director of Studies, merely verifies the correctness of the computation. There is no subjectivity involved in this selection.

Congratulations are due to these men whose WORK has led them to SUCCESS.

Office of Development: Fr. J. Gavin, OSA.

Events

The Special Events are held throughout the year to underscore other activities that may originate from the Office of Development or the Recruitment Office. Often these are carried out by the Parents' Club. The programs could not operate without the cooperation of members on the school staff; and through their efforts and those of the parents, these events are indeed special, as they move swiftly from the WORK stage to the stage of SUCCESS.

Reggie Theus Night

Reggie Theus refs game between Varsity and Frosh-Soph teams.

Chicago Bulls' sensational high scoring guard, Reggie Theus, was the featured speaker at a special night for eighth grade students interested in attending Mendel Catholic Prep.

The program was held on November 19. It began with the Mendel Jazz Band. Then an intra-squad game between the Varsity and Sophs, refereed by Theus. After the game Theus answered questions from the audience. The evening ended in the cafeteria with refreshments served by the Parents' Club.

The JETS is a National Organization for high school students. It is the Junior Engineering Technical Society, which was established to encourage the minorities to enter the engineering field. It exposes the students to the work and career of engineering, through high school organizations, presentations, and contests. Local and national businesses arrange for their personnel to give the presentations. Circle Campus is the center for the state sponsored contests in engineering and general academics. There are three contests a year. Mendel took First Place in Academics in May 1980 and Third Place in Design. Then, in the Fall of 1980, they also took First Place in Design. Their WORK truly leads to SUCCESS.

Augustine Speech Festival

Eddie Thigpen delivers his prize winning speech.

The Augustine Speech Festival is a school event which allows the students to discover the field of speech. This is a contest between all the students beginning in the individual classes. There are five types of speeches: Humorous, Serious, Storytelling, Declamation, and Dramatic. The Freshman and Sophomore classes compete within their own class years. The Juniors and Seniors compete in their categories and against each other until a winner in each category is found. Next the five categories compete for the Fr. Albert Durant Award. Fr. Durant was an Augustinian teacher and speaker of some note at Mendel for years.

Coach Wilkins

The Loneliness of the Long Distance Runner

The Picture of the WORK Shows That . . .

It is a young team that ran for Mendel this past year. Late in the Summer, Coach Wilkins took them through their limbering up exercises and initial wind sprints, so necessary in the final striving for the finish line. In the school year, Coach Phillip took over and carried the team through the Fall schedule of meets. They worked hard. They worked long. And Coach Phillip is proud of their improvement.

Limbering up!

Planning the schedule.

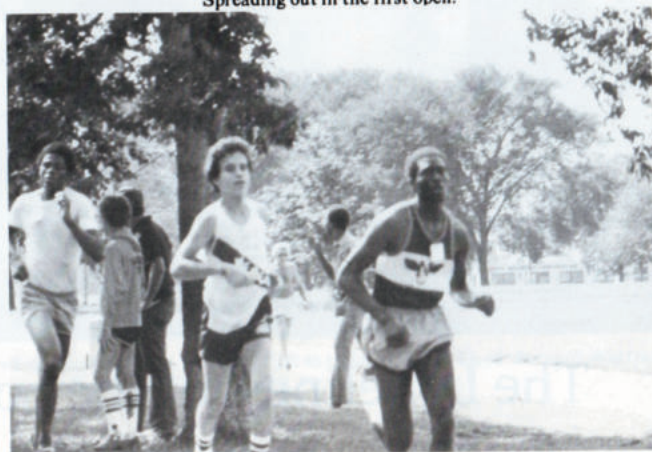

Grouping at the Gun!

Spreading out in the first open.

Rounding the corner into rough ground.

Spreading out!

Passing.

Clearing the woods.

Sprinting in the straightaway.

Straining to maintain the lead.

Crossing the line.

The award for the lonely striver.

The WORK of the team this year brought individual SUCCESS. It did not yet bring team SUCCESS. That is very evident in the future. For the individual efforts improved over the year and promise much for the teams' future glory.

THE LONELINESS OF THE CROSS-COUNTRY RUNNER!

SUCCESS Is Due to Individual Effort.

An injured Monarch down on the Astroturf of Gately Stadium typifies Mendels' 1980 football season. Though the team worked hard, success was not seen in their won-loss record.

However, this season's gridders had another type of success. Coach Thanos said that this team had the most heart of any he had been associated with.

The Monarchs never gave up, and this was shown in the Homecoming

The Year in review: 1980-81

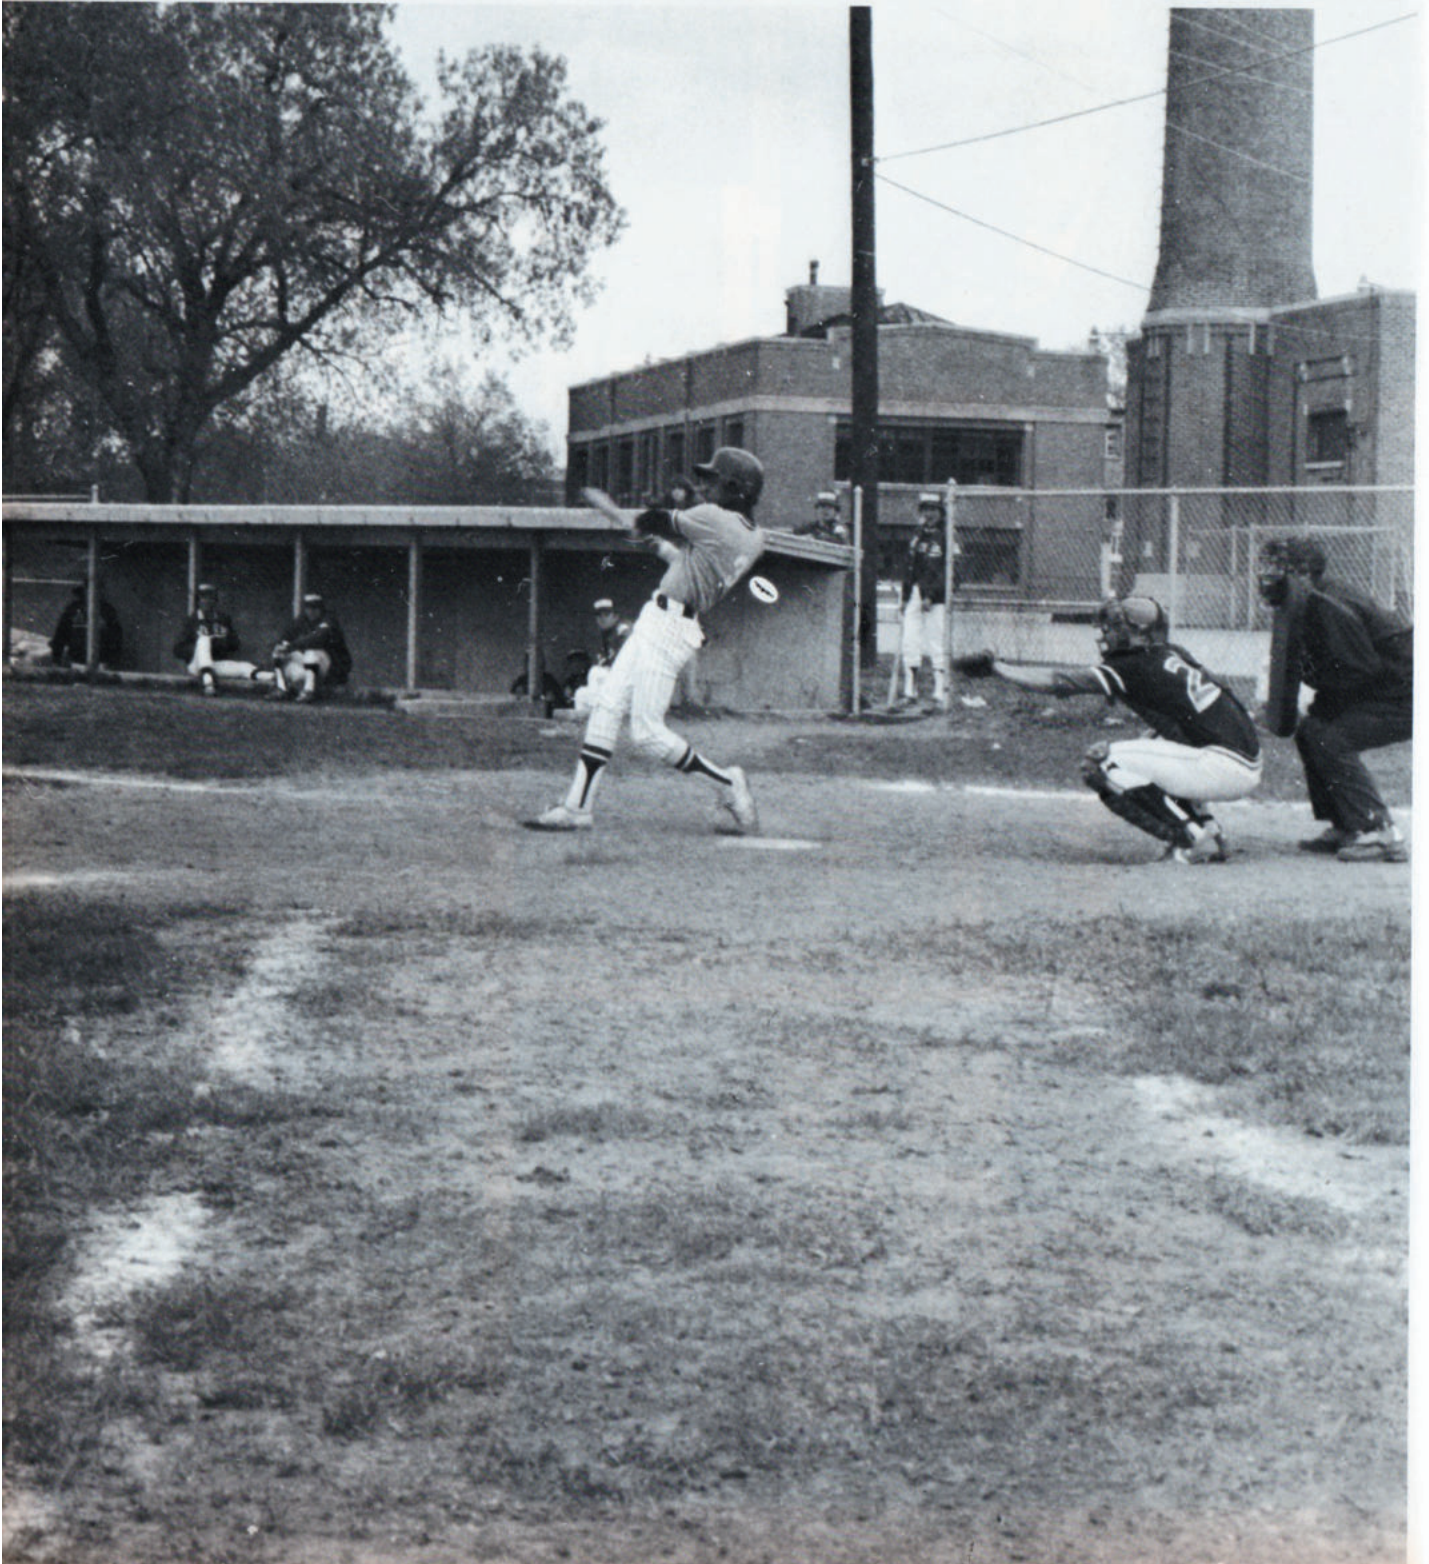

A lack of depth was the nemesis of the year; every time there was a chance of WORK leading to SUCCESS, the team's lack of more personnel hampered its hopes for group success.

As a team, they came in seventh in the Catholic League. The team had wallowed for a year without leadership. This wallowing was cured by the arrival of Coach Lloyd Bernier and his assistant, Coach John Sosnowski. But the team's reputation was low, and few came out; the future is still questionable.

Individually, A. Williams took a third in the Holy Cross Tournament; R. Wright, a first; and J. Nelson, a second. In the Catholic City Eric Washinton took a fourth; J. Nelson, a third, and R. Wright, a second. In the Districts: both Rosey Wright and Johnny Nelson were first in their weight divisions.

The 1980 Mendel Monarch Varsity Baseball season was a disappointment. The season started out slowly with the team's first victory coming in the sixth game, a 6-4 defeat of Leo. The team then lost three games in a row, before going on the only winning streak of the season, which included defeats of Hales and St. Francis de Sales. The entire season went like this.

Tracy Watkins backs up a strike.

First baseman Lane Derrin Gray guards second.

Asst. Coach: Curtin

The 1980 Mendel Monarch Varsity Baseball Team consisted of Coach Mike Mandarino, Andre Banks, Vince Lane, Marlon Mitchell, Reggie Dennis, Henry Henderson, Doug Brown, Donald Oliphant, Jeffery Cook, and Coach Mike Curtin. With so many returning players their WORK will surely lead to SUCCESS.

The Sophomores

The Good Old Nicks

The Nickels

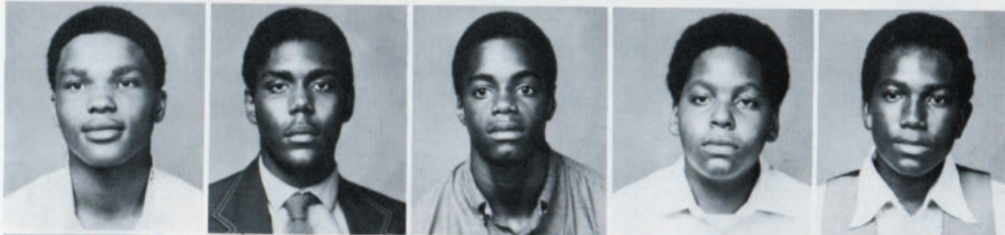

The sophomores return to the school for their second year with a bit of tarnish on their sheen. They no longer seem to be from Heaven. They are full of the Old Nick; still they know that they need to WORK to SUCCEED. It is just that at times, they work for the wrong ends. For they have difficulty putting that axiom, the saying that WORK leads to SUCCESS, into proper practice. They are nickle plated, no longer filled with only pure intentions; they are indeed "wise fools."

The Freshmen

The Pennies from Heaven

The Coppers

The freshmen arrive at the school with many expectations. They are fresh and eager. They are indeed Pennies from Heaven, full of promise for the future. During their four years at Mendal, they will WORK and sweat at their studies and activities and athletics. They will see that it is only through this hard WORK that they will find true SUCCESS.

**Work Has Led
to Success!**

Dear Students, Faculty, and Friends of Mendel.

We hope that you have enjoyed looking through the 1980-81 edition of the Monarch.

We hope twenty years from now that you open this book and laugh at what you did in high school. Things that you consider crazy now!

Our theme for the 1980-81 yearbook is WORK equals SUCCESS. We feel that if you work hard enough, you can be successful in any endeavors you encounter.

We would like to thank Athletic Director Mr. Edward Adams, the Mendelian, and Mr. Robert L. Tyson for all they have contributed to this edition.

We would also like to thank the various teams, organizations, and individual students with their coaches, moderators, and advisors for cooperation and patience.

We thank the Faculty and Administration who gave us the opportunity to compile this book for you.

Our special thanks goes out to Mr. Ken Nemsick and J. J. Schmitt Studios for their cooperation.

Our special thanks goes out to all the students who worked often very long hours on this book.

We hope this edition of the Monarch has properly coined the images and phrases of this year!

THE MONARCH STAFF

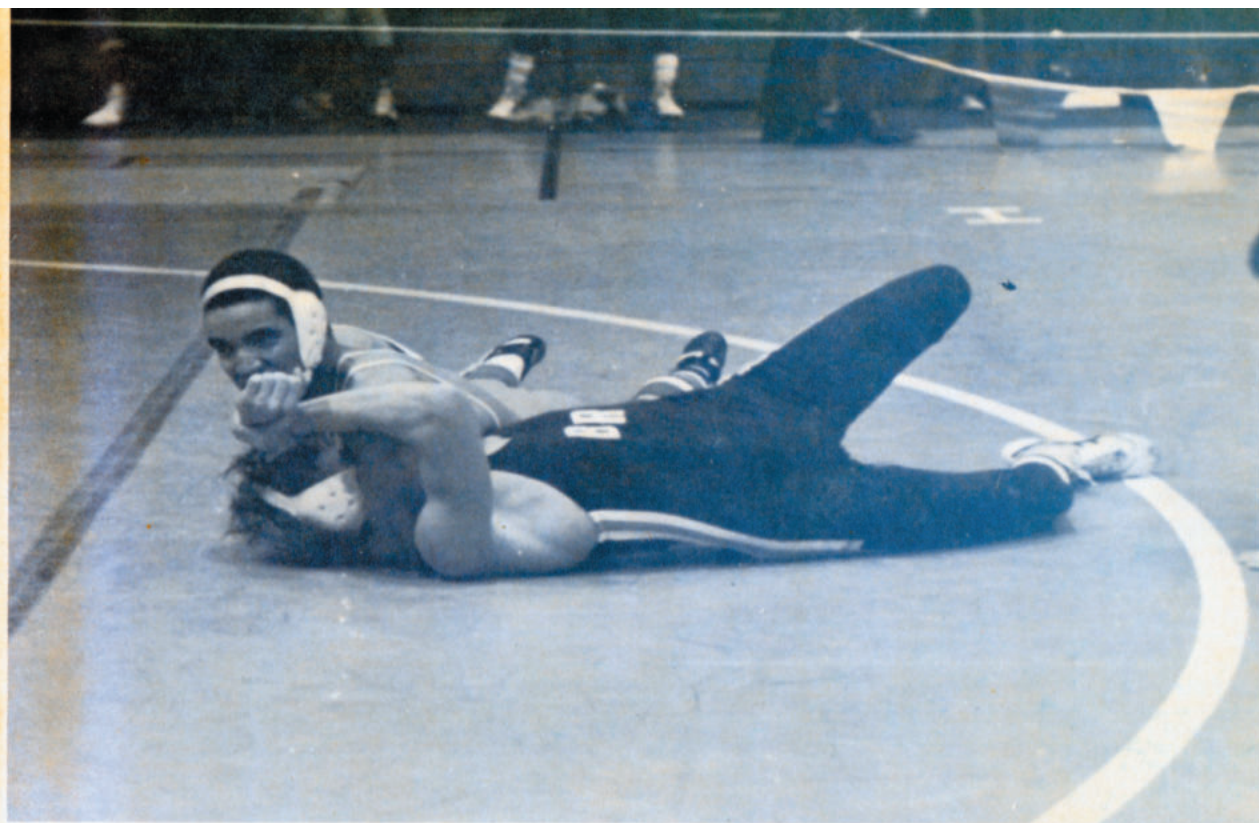

The first part of the document discusses the importance of maintaining accurate records in a laboratory setting. It emphasizes the need for clear labeling and organization of samples and equipment. The second part details the procedures for handling hazardous materials, including safety protocols and emergency response plans. The third part covers the calibration and maintenance of laboratory instruments, ensuring that all measurements are precise and reliable. The final part of the document provides a checklist for routine laboratory safety checks, including fire extinguisher inspections and spill kit readiness.

A FLIPPING COIN!

This is what is represented by the graphics on the cover. And there are two sides to it: **WORK AND SUCCESS.**

Design: Jim Sheridan.
Graphics: Larry Morey.
